The journey for Dr. Saaidal began with the **44th GTI Workshop** held at the Novotel Barcelona City from February 28 to March 1. The workshop focused on four critical pillars:

- **5G-Technology and Product:** Discussing the latest infrastructure developments.
- **5G-A x AI Development:** Exploring the synergy between advanced networks and artificial intelligence.
- **5G Enterprise Network Solutions (ENS):** Tailoring

connectivity for industrial engagement and digital transformation.

- **5G Digital & Intelligent Life:** Examining how these important & useful technologies impact daily human experiences.

The momentum culminated on March 3 at the **GTI Summit** at Fira Gran Via, themed "**Hello Mobile AI**". A significant event milestone witnessed by Dr. Saaidal was the **GTI-GSMA Cooperation 2.0 Signing Ceremony**,
